

ISHSHOES are handcrafted from soft leather with light-weight soles. This combination has proven to provide the comfort people require, for both casual and business footwear, while maintaining a high degree of durability.

ISHSHOES are available in children's to adult sizes in a range of designs. Our leather is not pre-stretched so that each shoe moulds itself to your particular foot. Each order receives personal attention to ensure a comfortable fit no matter how 'odd' the foot shape.

COLOUR CHOICE

Our range of leathers exceeds sixty different colours, which constantly change according to demand and supply. You can choose one colour, or as many as ten on the 'Patches' design. We will endeavour to match our leathers with your colour choice.

GUARANTEE

If not satisfied with the fit or colour combination of your **ISHSHOES**, we will remake your shoes or refund your money on return.

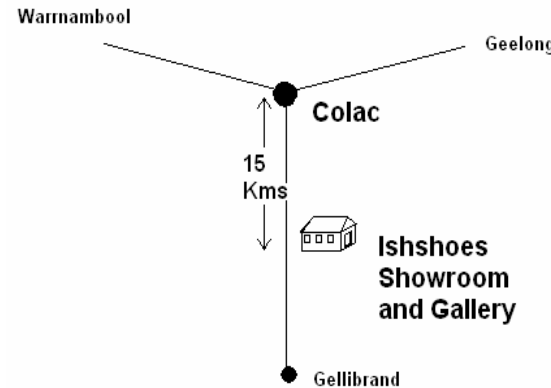

For personal fittings and attention visit us at our **Showroom / Gallery**.

Mail Order is also available, please ring for Order Form and Price list or download from our web site:
